# Our Vision

To be distinguished by our clients as the first choice in providing the state-of-art medical devices, services and customized solutions.

Since 2013, Elite Healthcare Company has been working closely with the Saudi hospitals and end-users to understand their specific needs in terms of medical devices services and new solutions.

As a young company Elite Healthcare is focusing on providing unique services and state-of-art solutions that can add significant values to our clients.

The vast experience of our team & existence in the Saudi healthcare field helped us to develop strategic partnerships with some of the key accounts in the Saudi healthcare market.

The quality of products that we provide, the distinguished services our clients used to receive from us, and the dedication of our professional staff were always our key factors we depend on to gain the customers trust.

# Products

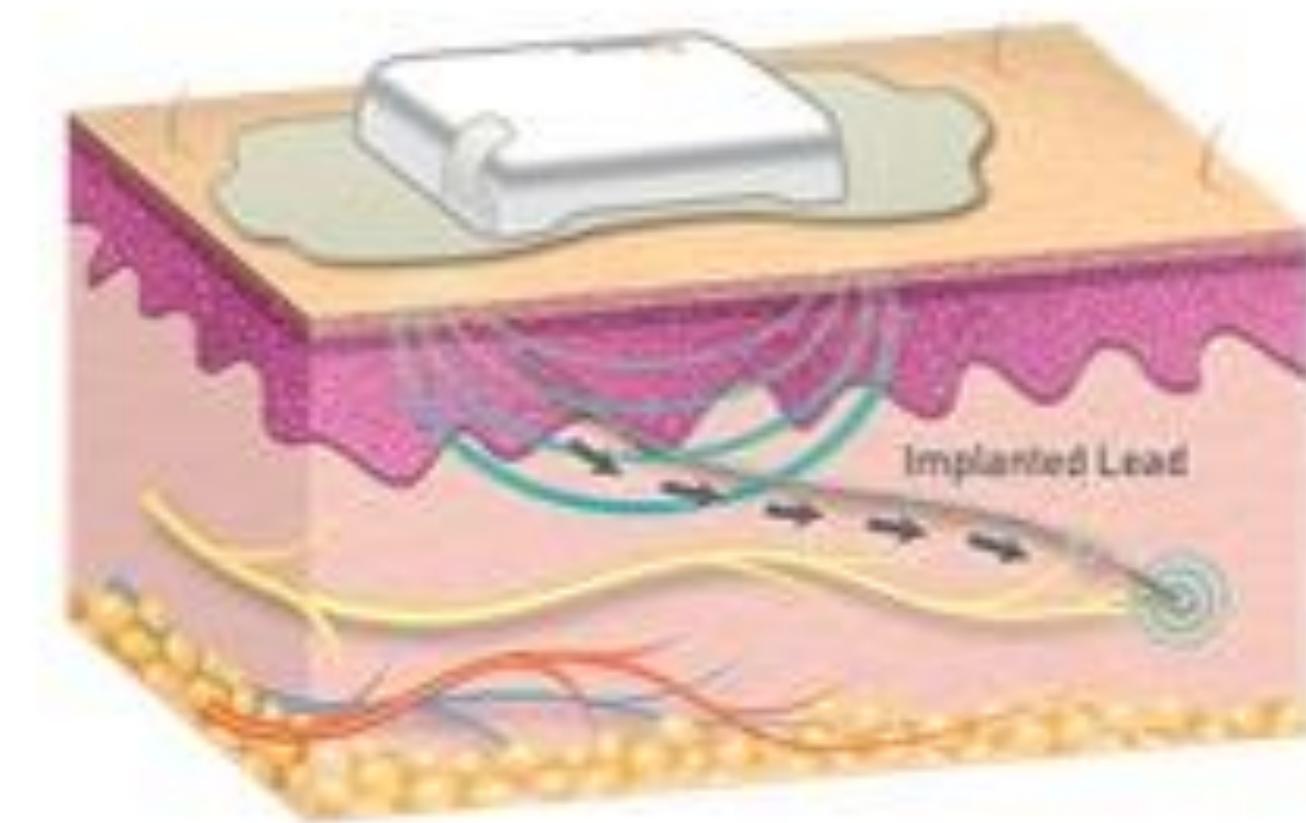

# StimRouter

➤ StimRouter™ is the only implantable device currently marketed for adults with chronic pain of Peripheral Nerve Origin.

➤ Applications may include OverActive Bladder & Chronic Pain conditions located at or relating to:

- Urge Incontinence
- The upper or lower limbs
- Entrapment syndromes
- Intercostal neuralgias
- Other peripheral injuries or diseases

• • •

# StimRouter

StimRouter™ expands the boundaries by offering the following features:

- Targets pain at its origin
  - Minimally invasive implant
  - Quick and easy to program
  - Designed for long-term implantation
  - Designed to reduce lead migration
  - Enhances access to numerous peripheral nerves
  - Small low-profile externally worn rechargeable power source
- 
- 

# The Trackit

➤ The Trackit™ V EEG System is designed for long-term and intermittently monitored video EEG applications. It was developed for an EEG workflow in which the patient visits the physician's office or another clinical setting, has the electrodes applied by an EEG tech, and takes the unit home for deployment. The lightweight, wheeled case and sturdy tablet is easy for the patient to handle and set up.

• • •

• • •

Combines high function with patient-centered design

The Trackit™ T4A, is the fourth generation Trackit and is smaller, lighter, and more efficient than ever before. Weighing just 12 ounces, the T4A is an ideal choice for children and adults alike and comes in a sturdy, yet soft, water-resistant bag that stands up to rigorous home use standards.

The T4A cleverly combines low power with high performance, making it a truly efficient ambulatory device capable of five days of continuous recording, three with Bluetooth.

The built-in PCU prevents interruption of studies during daily activities or sleeping, and the patient event button is easy to access without opening the protective pouch.

Designed for both EEG and sleep applications

The Trackit™ Mk3, is the third generation Trackit has had significant enhancements implemented to make Trackit one of the most widely-used in-home EEG amplifiers.

Trackit Plus EEG software allows remote access using third-party software, such as TeamViewer™, for monitoring during EEG acquisition. After completion of the recording, Rendr Platform cloud software offers optional cloud uploading.

The EEG study can then be accessed by readers and central reviewers over the internet.

3D EEG Source Imaging (ESI)

Functional Connectivity Analysis

Machine Learning:  
Classification and Prediction

B

A

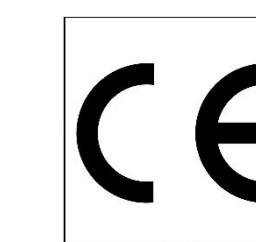

➤ With CE and FDA approved applications for clinicians and tailor-made solutions for clinical trials and research we are on a mission to optimize patient care.

➤ Epilog provides solutions as a service allowing clinicians, hospitals and companies to easily focus on the interpretation of the EEG

Epilog Clinical Research Services (CRS)

# LifeSignals™ Holter Connect™

A complete cloud-based clinical  
Holter ECG analysis and reporting  
Solution

# HOLTER CONNECT - Solution

- World's first single-use,
- 2-Channel ECG wireless Biosensor
- Continuous collection and upload
- 7 days of ECG & HR data
- Complete end-to-end system
- Cloud-based Holter Test reporting solution
- High quality reporting
- No hardware required
- Scaling up of Holter monitoring services
- Reduced staff time

# The Process

Patches placed  
appropriately

1

Patients live their  
normal day-to-day  
lifestyles

2

Lifesense continuously  
monitors their heart and  
detects heart rhythm  
abnormalities  
in real time

Medical professionals  
monitor patient  
heart and generate  
medical reports

3

Using the world's  
1stHIPPA-compliant,  
Cloud-Based Cardiac  
Monitoring System

Real-time access  
to patient data  
from any internet  
connected device

4

Physician is able to  
make proper  
diagnosis

# Spectra Gold – Clarity Medical

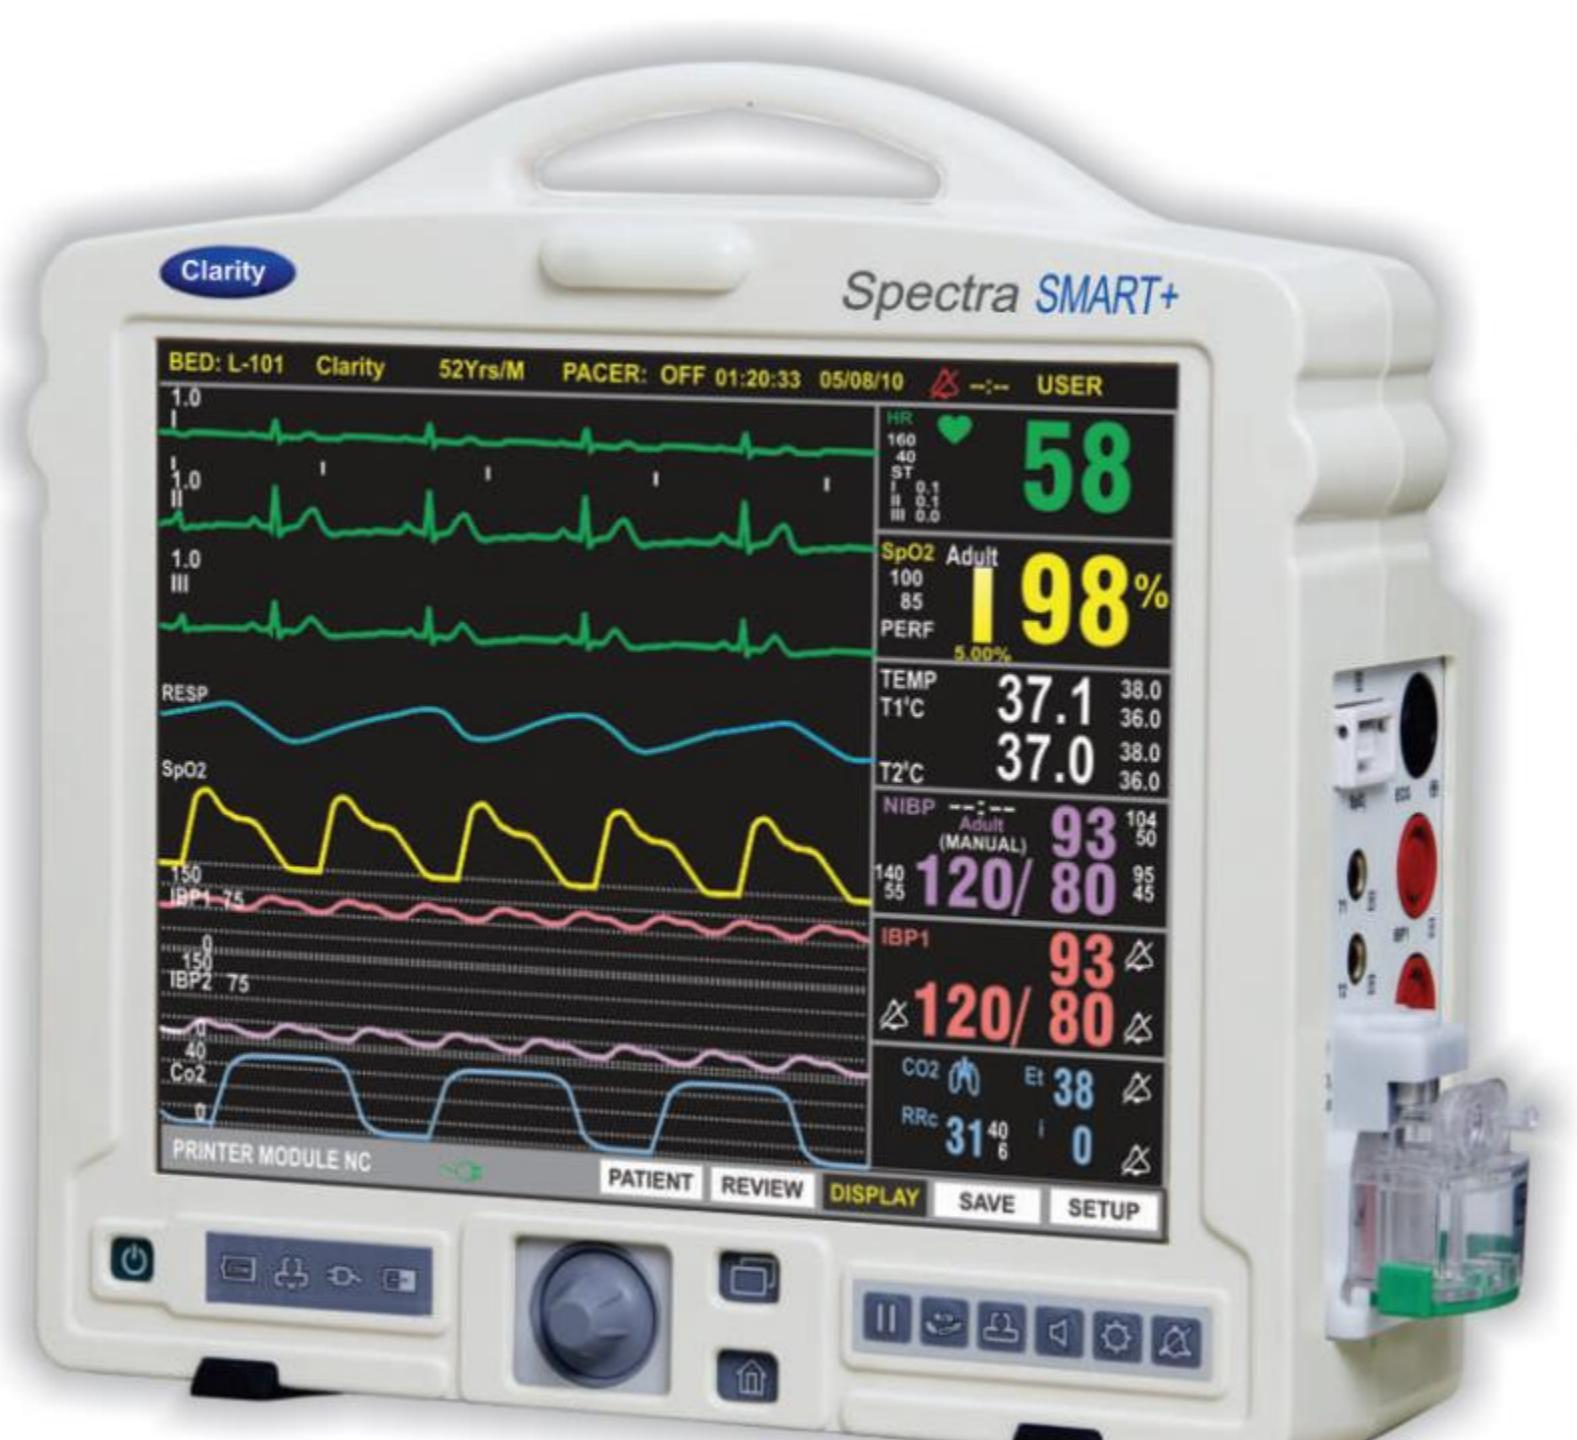

**OT / ICU / CCU grade Patient Monitor**

- ECG, SpO<sub>2</sub>, Temperature, NIBP, Respiration, IBP (single/dual/triple Ch) optional, EtCO<sub>2</sub>
- **15" TFT touch screen**
- 8 real-time configurable waveform display
- Big font for better viewing
- Audio and visual alarms for vital signs
- Night mode
- Adult & Pediatric transit monitoring
- Operation AC/DC
- Battery backup approx. 4 hours

**ELITE HEALTHCARE**

# Spectra Smart+ – Clarity Medical

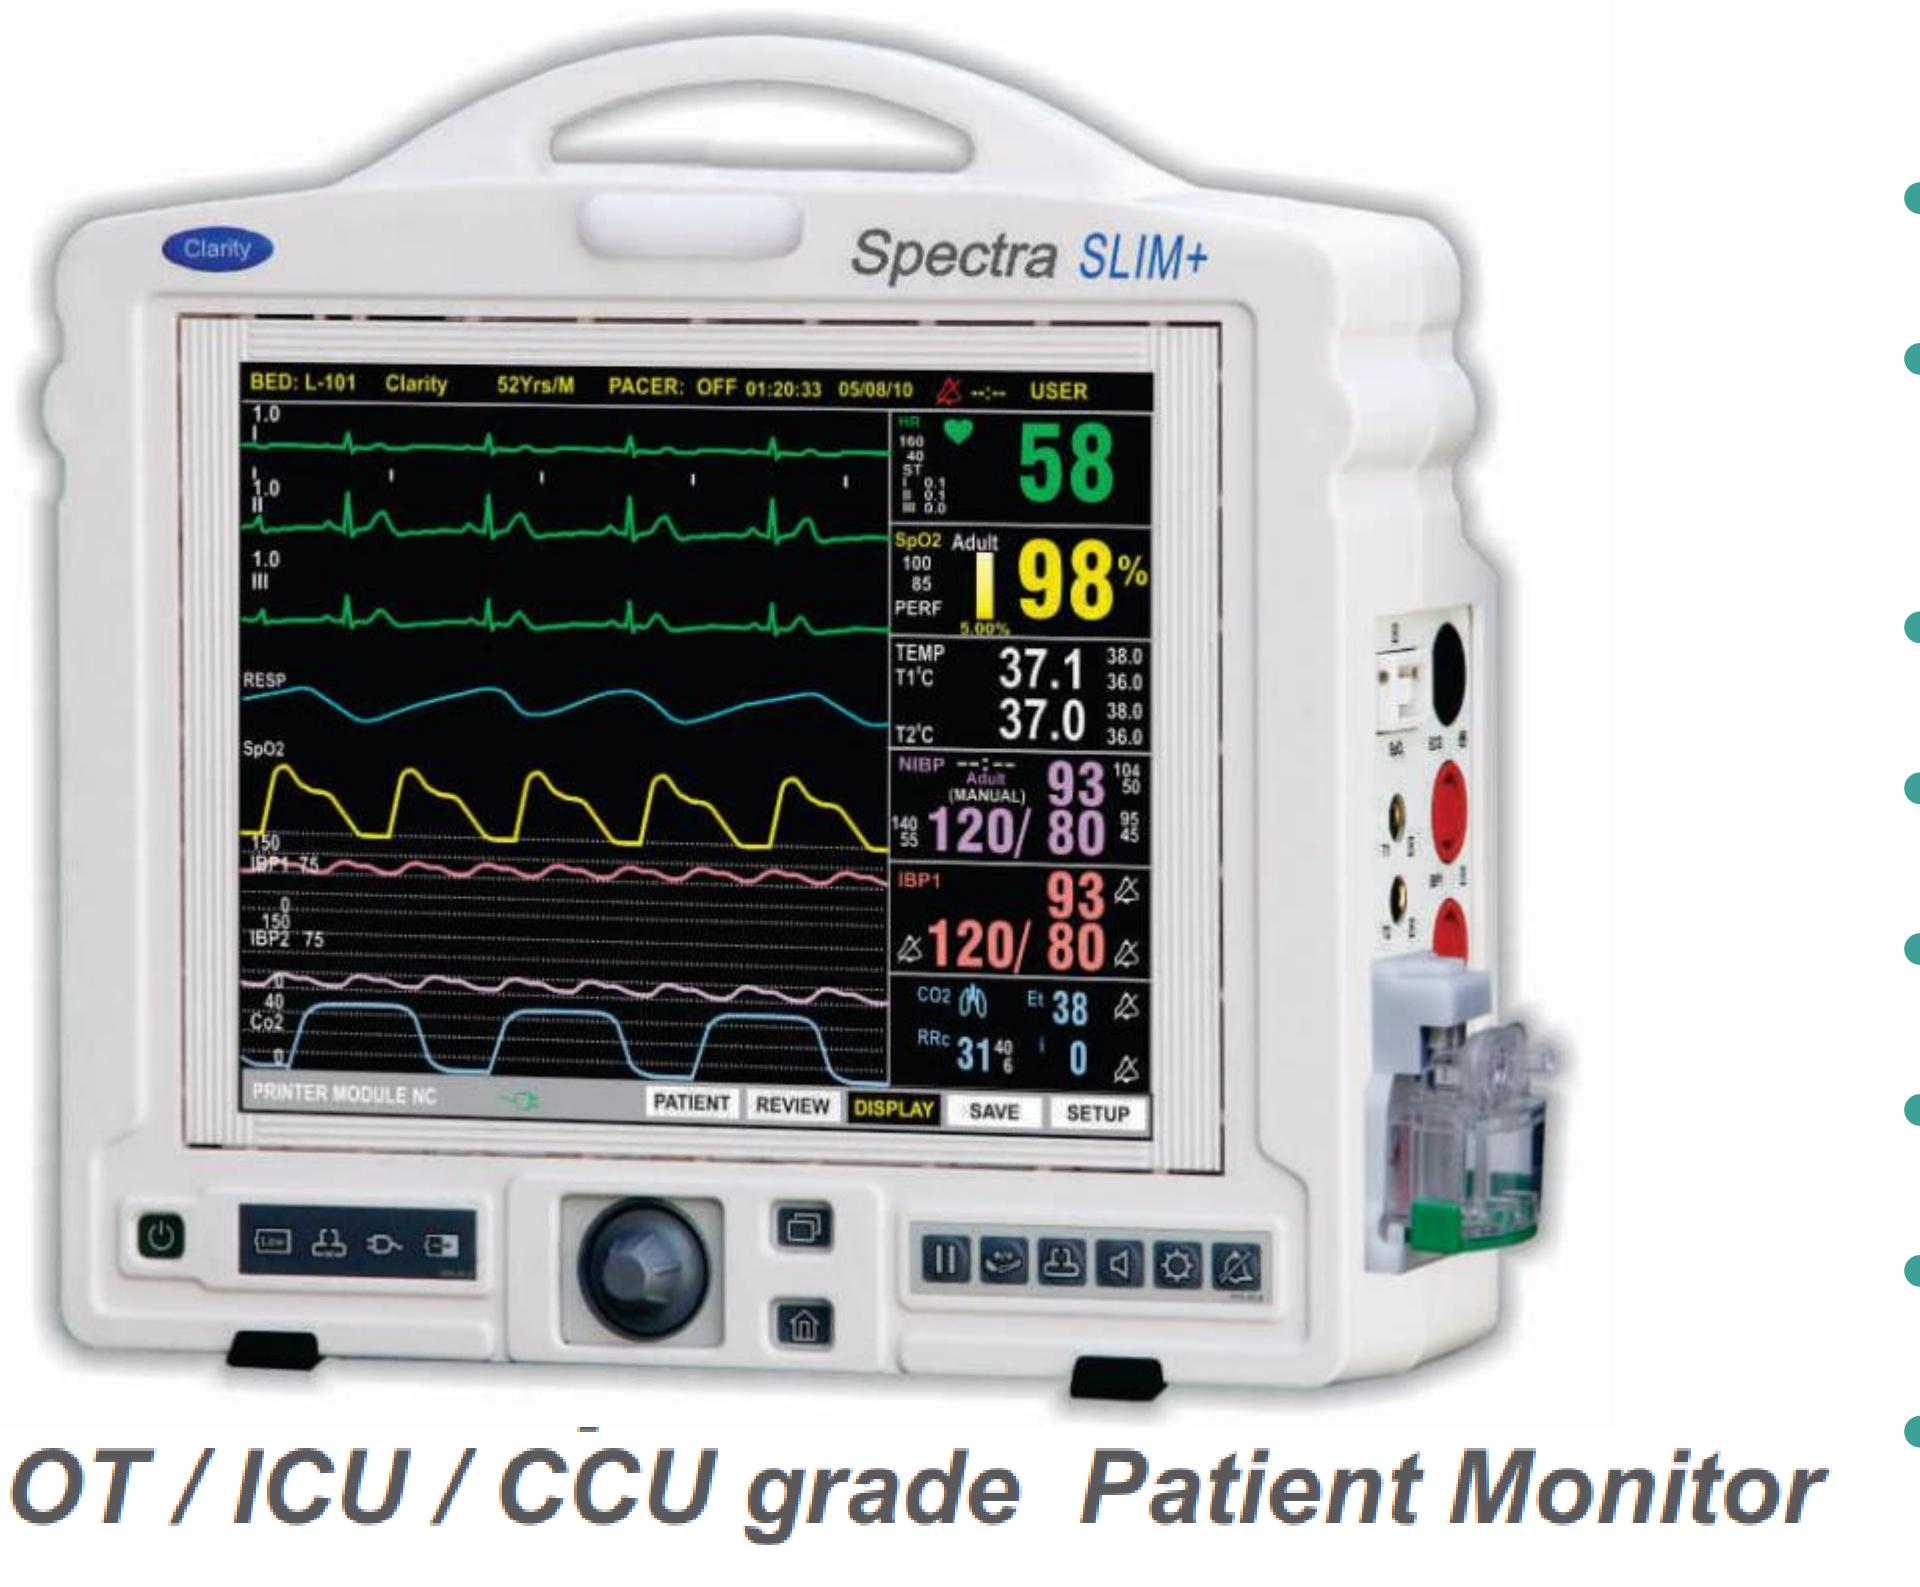

**OT / ICU / CCU grade Patient Monitor**

- ECG, SpO<sub>2</sub>, Temperature, NIBP, Respiration, IBP (single/dual/triple Ch) optional, EtCO<sub>2</sub>
- **12.1" TFT touch screen**
- 8 real-time configurable waveform display
- Big font for better viewing
- Audio and visual alarms for vital signs
- Night mode
- Adult & Pediatric transit monitoring
- Operation AC/DC
- Battery backup approx. 3 hours

# Spectra Slim+ – Clarity Medical

- ECG, SpO<sub>2</sub>, Temperature, NIBP, Respiration, IBP (single/dual/triple Ch) optional, EtCO<sub>2</sub>
- **10.4" TFT touch screen**
- 8 real-time configurable waveform display
- Big font for better viewing
- Audio and visual alarms for vital signs
- Night mode
- Adult & Pediatric transit monitoring
- Operation AC/DC
- Battery backup approx. 2 hours

# Recobro Vigile V2.0 – Clarity Medical

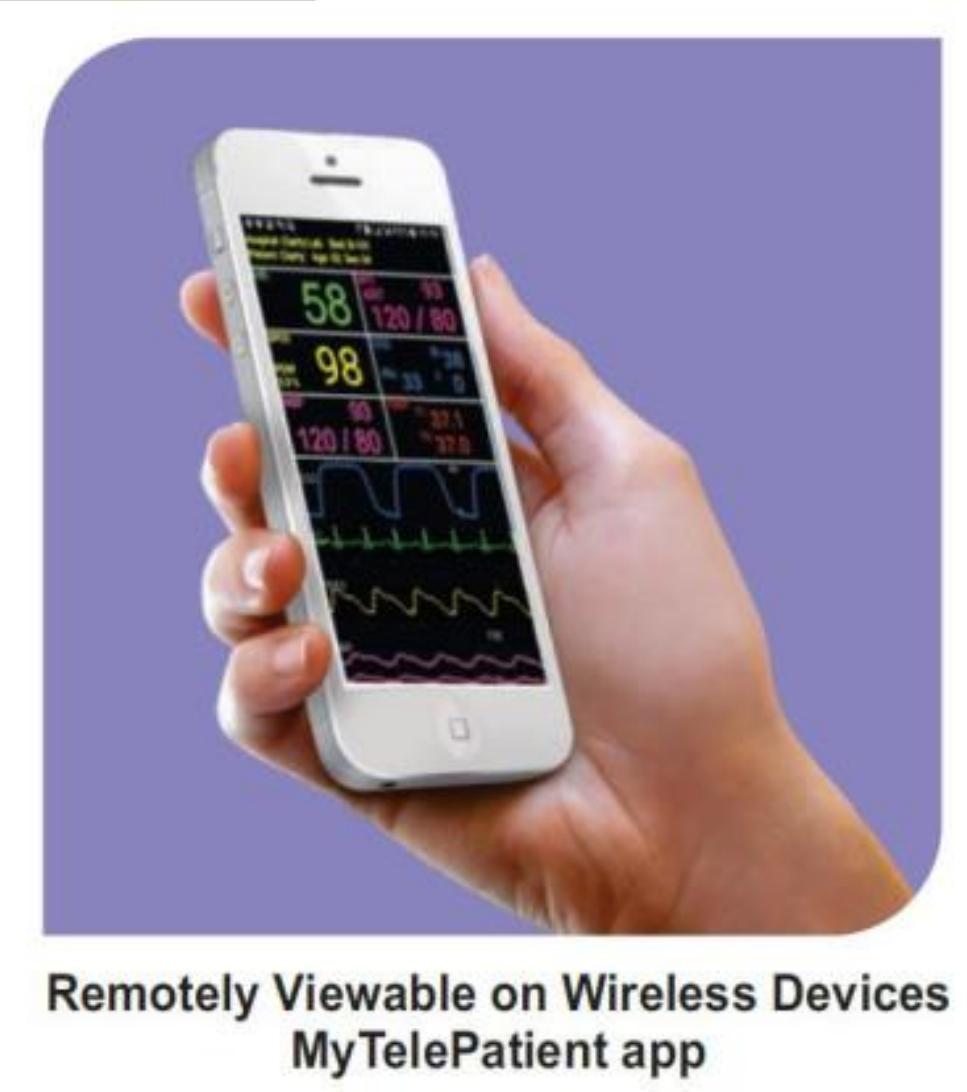

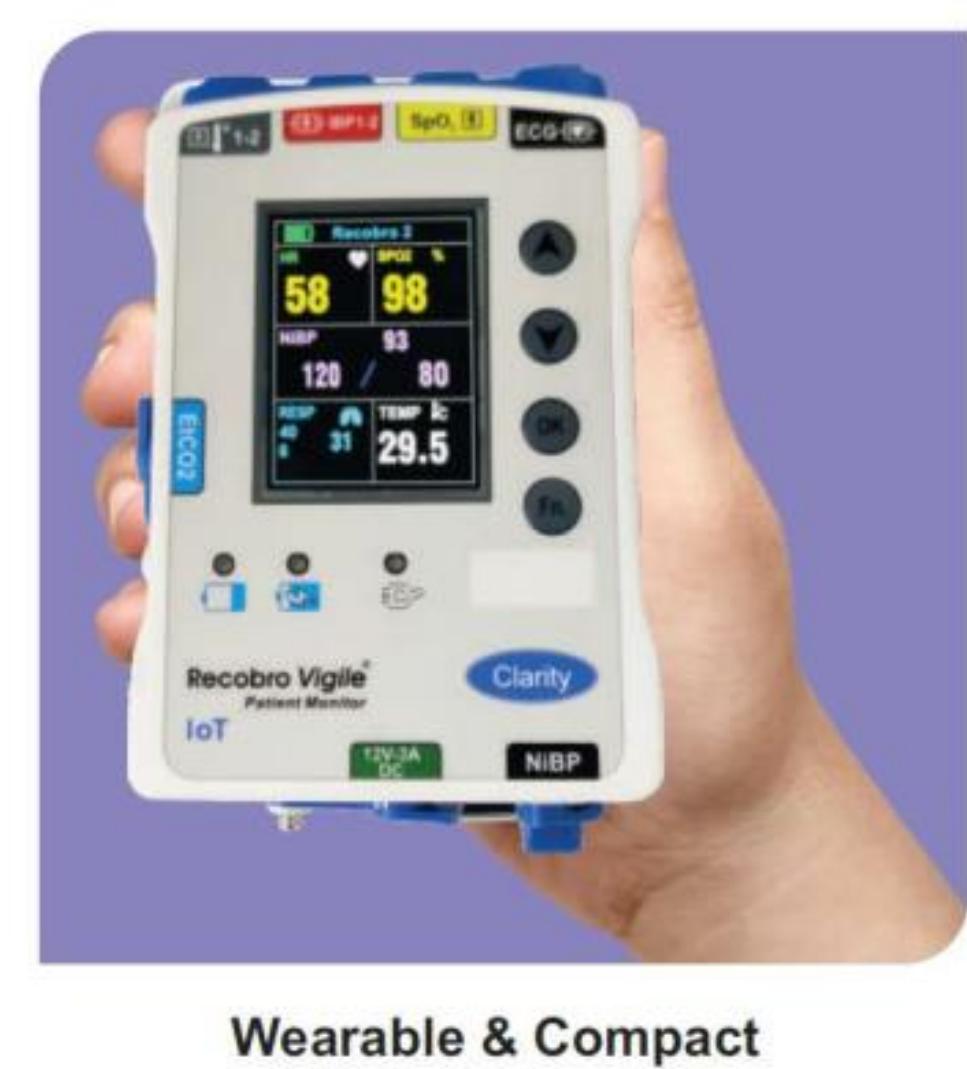

**Tele ICU Patient Monitor**

- Enables real time monitoring & telemetry of multiple vital signs
- Integrated Bluetooth & Wi-Fi communication capabilities
- *My TelePatient* – the companion mobile app
- Multiple patient monitoring through a single mobile app

ELITE HEALTHCARE

# Recobro Vigile V2.0 – Clarity Medical

- **2.4" color TFT**
- Wearable – permitting walking, going to washroom, between different hospital locations
- ECG, SpO<sub>2</sub>, NiBP, IBP, Temperature, Respiration, EtCO<sub>2</sub>
- **Dynamic remote monitoring**
- Wireless connectivity with smartphone/tablet thru *My TelePatient* app
- **Adult, Pediatric, and neonatal application**
- IPX2 ingress protection rating
- Battery backup of up to 7 hours

# AngioExperience Pro8 – SOT Medical System

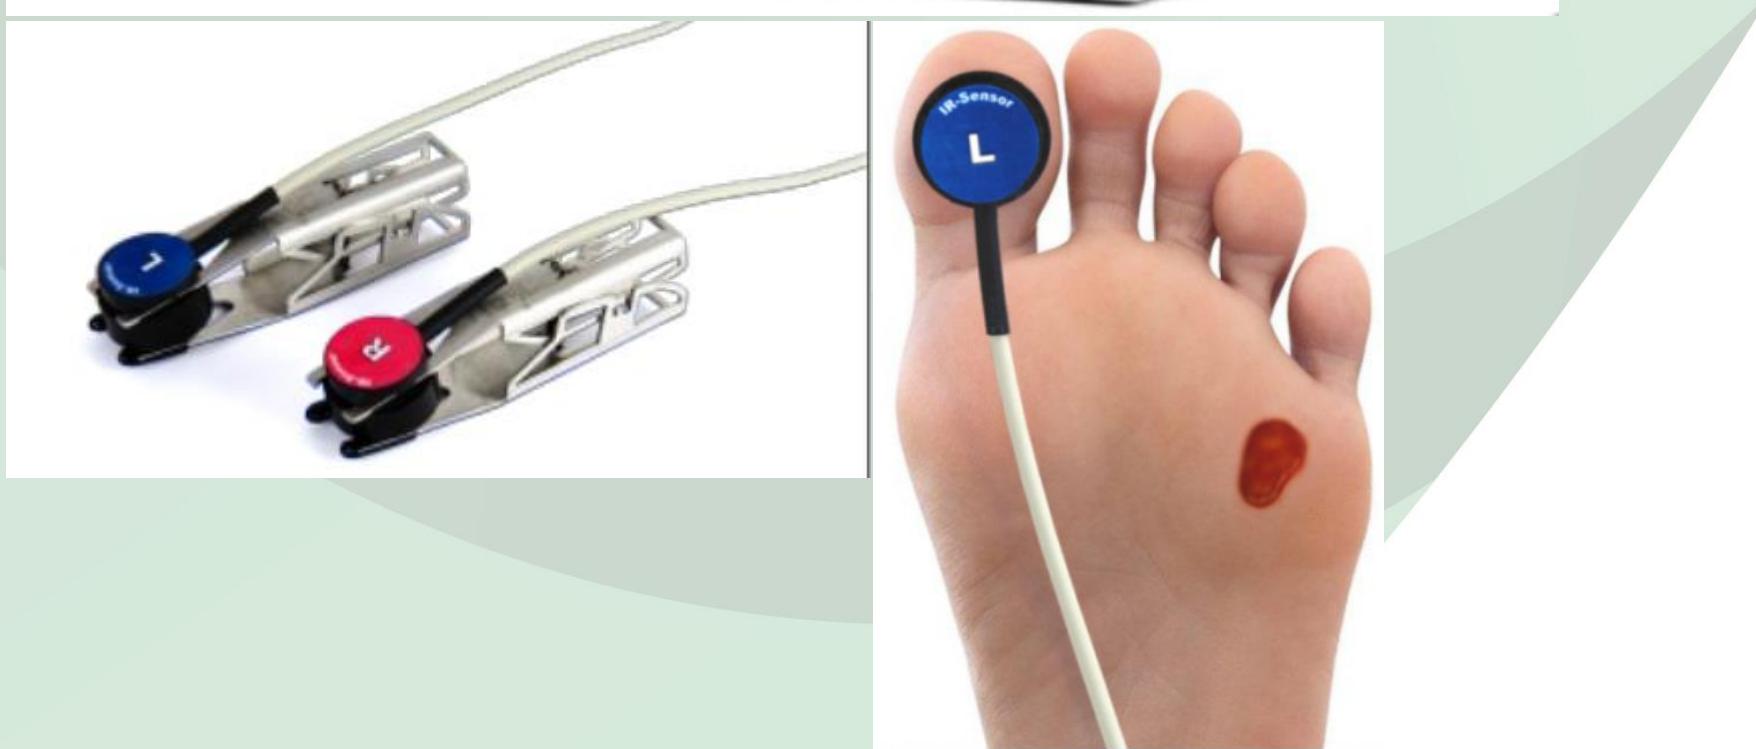

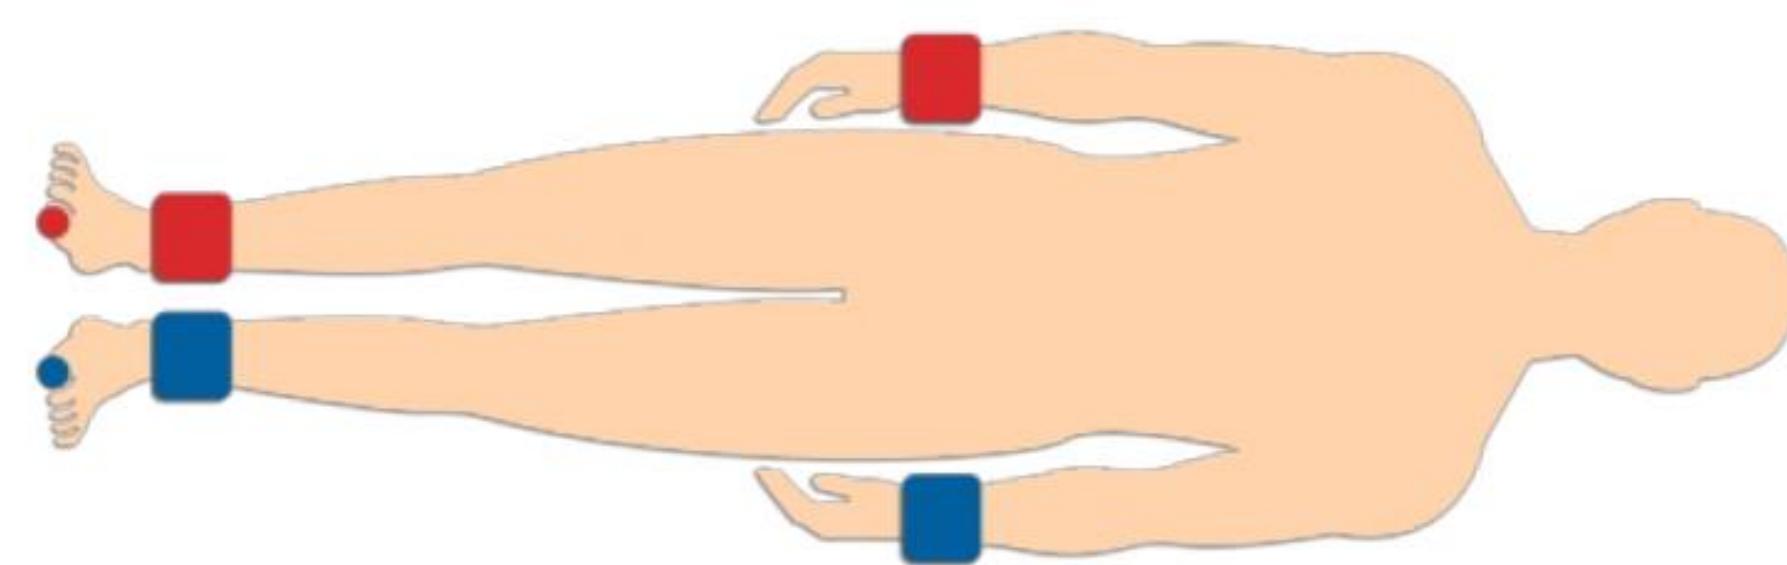

- Oscillometric Ankle Brachial Index
- Toe Brachial Index
- Ultrasonic doppler
- Pulse wave velocity & Heart rate variability
- Pulse wave index
- Multi-channel stress tests
- 8 channel segmental oscillography
- Venous Air Plethysmography
- Venous occlusion Plethysmography

The All-in-One Vascular Diagnostics System.

# AngioExperience Pro4 – SOT Medical

***Comprehensive Vascular Screening –  
Diabetic patients***

- Simultaneous measurement under 3-minutes
- Determine oABI, TBI, Toe Pressure, Pulse wave velocity, Heart rate variability and more
- Pulse Wave Index
- Passive & active stress test
- Comprehensive report
